Click the Ringgold ID to see the Identify Record for this organization in Identify Online (you must already signed in to Identify Online)

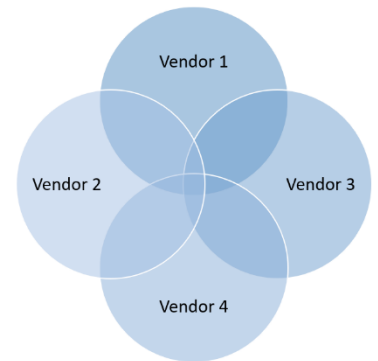

Analyze vendors to create powerful prospecting lists

Analyze and compare consortia that license competing or similar products from up to four vendors. Create gap analyses and exportable prospect lists.

Four different reports are available. The result of each is shaded blue below:

Inclusive (All distinct clients):

Returns a deduplicated list of all client consortia with a relationship with any of the selected vendors.

Unique Clients:

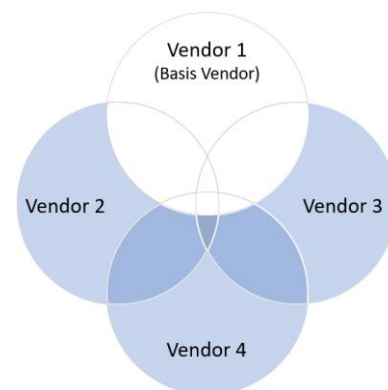

Returns a list of all client consortia which only have a relationship with one of the selected vendors.

Prospects

(requires vendor basis):

Returns a list of all client consortia which do not have a relationship with the vendor selected as the basis but do have a relationship with the other selected vendors.

Common Clients (requires vendor basis):

Returns a list of all client consortia which have a relationship with the vendor selected as the basis and any of the other selected vendors.

Export a single list of consortia members or consortium contacts for multiple prospects

From a search results list, click Reports
