RINGGOLD

Quick Start Guide
Identify Online

Getting Started

This is an introductory guide for users of the online version of Ringgold's Identify Database of over 600,000 organizational records.

Detailed help for the site is available on our Customer Support website at: https://support.ringgold.com

Login:
Go to ido.ringgold.com
→ *Enter* existing Identify Online user email & password
→ *Click* Sign In
Or if you are set up for auto IP access, click:

_____   [Login Using IP]

Two search options

Both support Boolean (AND, OR, NOT), wildcard (*) and fuzzy (~) operators, and exact phrases (" ")

Simple Search
Use Simple Search to quickly find Identify Records: Enter an organization name, Ringgold ID or ISNI. Searches on both native spellings and alternative names

| Organization | Search |

Advanced Search
Enables highly detailed organization searching and prospecting:

Search ▾
Simple Search
Advanced Search

- Search against any field in the Identify Database
- Use the new Academic Filters for targeted results
- Search & refine by subscriber and product detail

Powerful metadata filters

Search on a wealth of descriptive and authoritative institutional metadata to find the organizations that really count:

Doctors		Hospitals	
50	High	10	High
Libraries		Schools	
1	High	Low	High

Subjects   ☐ Include parents
⊞ ☐ Applied Sciences   select all
⊞ ☐ Arts and Humanities   select all
⊞ ☐ Business and Management   select all
⊞ ☐ Economics   select all
⊞ ☐ Education   select all
⊟ ☐ Health   select all
  ⊟ ☐ Allied Health   select all
    ☐ Acupuncture
    ☐ Alternative Complementary Therapies
    ☐ Audiology
    ☐ Clinical Psychology

_____

Unique hierarchy display & export

Records in Identify Online are organized hierarchically and are displayed like a family tree, showing child-parent relationships.

Simply click to see an organization's hierarchy from any results list or record.

If your audited data is hosted in Identify Online, you'll be able to see precisely where your subscriptions are held within our organizational hierarchies: [C] Customer

Download entire hierarchies from within a record's hierarchy view: [⤓ Export Tree]

Smarter search results

Use the multiple options on any search results page to get to the organizations that really matter:

**Refine By** - Ringgold Type and Tier, regions, size
Filter By - specific names and locations
Sort By - new ways to order your list
Easy Downloading - one-click to get search results quickly on your desktop

⊕ Download Results

Straightforward results with simplified new icons

🏛 Full Identify Record detail
☰ Hover here for list of record's alternative names
⊓ Shows direct hierarchy of the organization
⍦ Indicates and shows multiple parents of the organization
⌐ View simplified hierarchy from this record
C_D Indicates Direct Customer
C_I Indicates Indirect Customer
C_DI Indicates Direct and Indirect Customer

Easily save, organize and share your search results

Custom-categorize your searches for fast retrieval and share with your colleagues

Datasets

_____

Find your direct & indirect customers fast

Use the special search options to find your customers fast, if your data is hosted by Ringgold:

Misc. Filters

☐ is customer of 1 or more products ☐ is not customer of any product
☐ is consortium ☐ is consortium member
☐ is consortium with customer member(s)

Products   Clear ✖

Broken Bones Monthly
Head, Shoulders, Knees and Toes
Indian Journal of Bone Technicians
Journal of Bones & breakages
Journal of Humeroulnar and Humeroradial joint
Journal of Joints, Failures & Fractures
Journal of Repetitive stress injuries
Knees, Elbows & Toes

Search by customer detail

Use the new search fields to find product data and organizations that you have business with:

Customer Information

Customer ID

Customer ID

Sales Contact - Surname

Sales Contact - Surname

Datasets

Datasets allow you to combine and compare new or saved queries to find similarities and differences between different result sets. For more assistance with this advanced feature see:
https://support.ringgold.com/identify-online-datasets.
